THE BULLETIN LIBEL CASE.

THE BULLETIN LIBEL CASE.

THE BULLETIN LIBEL CASE.

At a preliminary meeting held at the Royal Hotel, George-street, on Friday afternoon, and convened by a single advertisement, but attended by an influential gathering of citizens, great surprise was manifested at the result of the trial, and there were general expressions of sympathy with the proprietors of the Bulletin in their being saddled with the whole costs of the action.

Mr. G. C. Whiting took the chair, and read letters from prominent citizens and city firms, expressive of sympathy (which they showed practically by enclosing subscriptions), inasmuch as they considered that in so far as the Clontarf paragraph went they had suffered in the DISCHARGE OF A DUTY TO THE PUBLIC, and that the larger question of the LIBERTY OF THE PRESS was involved.

A committee was appointed to make arrangements and to take steps to collect subscriptions to defray the law costs.

Mr. G. C. Whiting
Mr. John M'Laughlin, M.P., and
Mr. Alderman E. Hordern,
were appointed Joint Honorary Treasurers, and

WE SELL FOR PROMPT CASH ONLY.—Our goods are marked at a rate of profit usual on wholesale transactions. We keep no books. Our scale of charges is regulated exclusively for customers who, NOT requiring CREDIT themselves, are disinclined to pay for those who DO require credit, and for others who do not pay at all.

FARMER and COMPANY.

CHILDREN'S COSTUMES.

5s 6d to 21s. Is it cardinal you seek! Here is one—a pretty costume in a Norwich rep, fit for a girl of 12, a body in the Langtry style, and tight-fitting skirt, with deep kilting at foot, tastefully trimmed with old gold—here a bow, there a bow—not too much trimming, not too little—all in good taste; price, 10s 6d. Or do you want a more sober tint? Look at this Oxford Beige. It would puzzle you to choose a better wearing dress. It looks warm, and soft, and good, and it is all it looks. The trimming is cardinal Satin de Lyon, and bespeaks the maker's care and cleverness. It is a well-made little dress; price, 12s 6d. There are hundreds of others, also, for our stock is very full just now, and there should be no difficulty in selecting. FARMER and CO.

MANTLES.

We have an enormous stock, all marked at wholesale prices. We cannot enumerate all the styles we have, but you could not name a shape, or design, or material, that we are not showing in full assortment. We have some splendid Black Cloth Dolmans, trimmed silk and fur, at 25s 6d, 27s 6d, 32s 6d, 42s, and up to 5 guineas. Then we show some of the nicest Ladies' Jackets possible to conceive. We commence these as low as 10s 6d, and we have every price up to 45s, about 1000 in all. We have also a nice parcel of Young Ladies' Jackets, with stylish plush hoods, various colours, price 35s. Our mantle department alone is well worth a visit.

FARMER'S.

LADIES' KID GLOVES.

Children's cloth from 8d per pair; ditto lined silk and cloth with fur tops; ladies' cloth, 1s 3d; black silk Jersey, 2s; ladies' fur-lined, 2s 6d. Wholesale prices for cash only.

FARMER'S.

WINTER HOSIERY.

LADIES' UMBRELLAS, 7s 6d, 10s 6d, 12s 6d. FARMER'S.

FRENCH MILLINERY.

A wonderfully nice assortment, just opened, ex mail steamer. Ladies' Velvet and Plush Hats, 12s 6d to 25s; Velvet and Plush Bonnets, 21s to 42s; Children's Trimmed Hats, 10s 6d to 18s 6d; Seal Toques, 6s to 18s 6d. Boys' and girls' felt hats, 2s 6d and 3s; children's white astrachan, Rink, and Tam O'Shanter shapes, 6s 6d. Wholesale prices for prompt cash. FARMER'S.

FRENCH SILKS.

Silks of a pure unweighted character are, as a rule, difficult to obtain, and purchasers are very apt to be misled in making their selections. The safest rule to follow in selecting is to have goods of a first-class maker, and only such. There are not more than some half-dozen good makers in France, and between these, one maker excepted, there is not any very great difference. But the difference between the best and the second best is most marked. It is Cyclops first, and the rest nowhere. Bonnet, the great Lyons manufacturer, towers thus like a Colossus among his contemporaries. Other makers can't approach him. . . . We sell more of Bonnet's Silks than are sold elsewhere in all Australia. We say this advisedly. For this reason we were selected to represent him at the New South Wales great Exhibition. FARMER and COMPANY.

FURS.

Chinchilla, Miniver, Grebe, Ermine, Beaver, Angora, Sable. These and a large variety of Fancy Furs comprise the assortment now offering at Victoria House. We treat furs as we do all others items in marking off—sell them for WHOLESALE PRICES for PROMPT CASH. Then, in buying, we go to the best furriers in the city of London. We are offering a parcel of 500 muffs at 5s 6d. Others at 8s 6d and 10s 6d. Capes, Collars, Collarettes, &c., equally good value. FARMER and COMPANY.

DRESS FABRICS.

About the largest and most comprehensive assortment of Winter Dress Materials we have ever shown. There is no mistaking the public appreciation of our efforts to cater for the wants of our patrons in the Dress Department. Each day crowds line our counters, evidencing the general satisfaction given both in material and price. We have persistently refused to lower the standard of quality ever maintained in this department, notwithstanding many inquiries for Fabrics at lower prices than we quote, far too low, indeed, to hope to purchase a reliable cloth for. We commence our Dress Goods at 7½d, at which price we show 500 pieces; then we rise 2d—9½d, and have 1000 pieces on show. 10½d is our next price; then 1s, 1s 2d, 1s 3d, 1s 4½d, and so on, up to 1s 9d. We have a splendid double-width Cloth at 2s 11d, worth 5s per yard; and, indeed, still quoted at 5s by more than one Sydney house. Then we have a splendid assortment of Shades in French Merinos and Cashmeres, ranging from 2s to 5s 6d per yard. Prices are for prompt cash only. FARMER'S.

LADD'S CANVAS COTS,

make a perfect bed, no mattresses or pillows required. Open and close as readily as an umbrella. Better than any hammock, as they fit the body pleasantly and lay straight. Self-fastening—just the things for hotels, offices, cottages, camp meetings, sportsmen, steamboats. Good for the lawn or piazza. Splendid as spare beds. 500 just received; price, 12s 6d and 16s 6d prompt net cash. As the demand for these splendid cots was extraordinary when first announced, and we have already some three-score orders to execute, intending purchasers are recommended to place their orders without delay. Once seen no householder will be without one or more. Note the prices, 12s 6d and 16s 6d.

FARMER'S.

French Toilets for single bedrooms, of French walnut, with marble tops and garniture of French China and Glassware, complete, 60s. FARMER and COMPANY.

Oak and American Walnut Dining-room Furniture, en suite. Oak and American Walnut Hall Furniture. FARMER and COMPANY.

Kitchen tables 6s to 40s; Kitchen Dressers, 21s to 46s; Paste Rollers, Paste Boards, Potato Mashers, Steak Beaters, Skirt and Shirt Boards, Housemaid's Boxes, Salt, Knife, and Soap Boxes; Towel Rollers, Butter Pats, Washboards, these and other inexpensive but necessary items may be purchased at a saving of 20 per cent. on regular prices by buying at our Furnishing Warehouse for prompt cash. FARMER and COMPANY.

HIGH CLASS TAILORING.

For prompt cash only. Gentlemen who pay have not to find the money for those who don't. Cutters: Messrs. Shearsby, M'Cabe, Phillips, and Irish. Trousers in splendid selection of materials: commence 16s 6d. Suits, £3 11s 6d. Every garment hand-made, and fitted to the entire satisfaction of purchaser. FARMER and COMPANY.

OVERCOATS.

Our Overcoats for this season far surpass in value anything we have shown before. This is due partly to several extensive and most fortunate purchases of materials from various Scotch and West of England manufacturers, but principally to the fact that the materials so purchased have been made into garments in our own LONDON FACTORY at a saving of quite 15 per cent. on warehouse charges. This saving goes entirely to the consumer. It benefits us in that we are enabled to sell much below any other city house minus a LONDON FACTORY, and to secure a much larger sale and larger aggregate profit, which is all we want. Now, to work a clothing factory in London with advantage requires a large outlet for the garments when made, an outlet indeed that is not possessed by any house in New South Wales that deals directly with the consumer, except ourselves. We stand alone in this respect. Hence it is we are able to sell a Scotch Tweed Overcoat at 21s that costs 30s in other shops; a Grampian Tweed Ulster at 25s that you pay 35s for elsewhere; a superior West of England Serge Overcoat at 36s 6d that costs 50s in most houses. True, the principle of our NEW SYSTEM comes in here and helps us, to wit, PROMPT CASH PAYMENTS by buyer and seller. FARMER and CO.

MACINTOSH COATS.

2000 from a noted manufacturer, a clearing line. The best Oxford and Grey Diagonals, with plaid linings, vulcanite between textures, can be used as ordinary overcoat if required. The best fitting coat, and the cheapest we have ever seen, 30s prompt cash. FARMER'S.

TWEED SUITS, GENTLEMEN'S, at 27s 6d.

Pure Bannockburn and Grampian Tweeds, all thoroughly shrunk, suit fashionable shape, can fit any sort of figure, 27s 6d net, wholesale price for ready money, cannot match them in any wholesale house in the city under 30s; ordinary retail price in most houses 37s 6d and 40s. FARMER'S only.

TWEED TROUSERS, for gentlemen, 5s 9d.

Exhibited in our outfitting window. No wholesale house cares to quote this line under 8s 6d; ordinary retail price 8s 6d and 9s 6d; prompt cash price at Farmer's 5s 9d; 2000 pairs to select from, all colours. FARMER'S only.

GENTLEMEN'S WINTER SOCKS,

GENTLEMEN'S UNDERSHIRTS, &c.

GRAND FATTENING STATION.
TULLOONA.
GWYDIR DISTRICT.
PITT, SON, and BADGERY have received instructions from Messrs. Gill and Pain to offer by public auction, at the Exchange, Sydney, on WEDNESDAY, 15th June next, at 12 o'clock,
Their well-known fattening station in the Gwydir district, known as TULLOONA, and comprising the blocks or runs—Tulloona, Tulloona South, Tay Green and Tay Green South, of an estimated area of 220,000 acres.
Together with about
100,000 sheep
3,500 Cattle
20,000 acres land.
The run which is situate about 50 miles from Warialda, 40 ditto from Moree, 30 ditto from Goondiwindi, Queensland, and 100 miles from Narrabri (to which the railway is now being constructed) is surrounded by the noted fattening properties of Messrs. Dangar, Adams, Brown, Doyle, and Dr. Jenkins.
The country consists of myall and salt bush plains, with occasional belts of timber, the whole being of the richest fattening description, and very heavily grassed.
The owners have expended a very large sum of money, in improving and securing the run, and it is estimated to carry quite 50,000 more sheep than those now depasturing on it.
The fencing is all new and substantial, and consists principally of 6 wires and top rail, and 5 wires.
Of the Sheep, about 35,000 are lambing ewes, the balance being wethers up to 4 years and younger sheep; they bear an excellent reputation, and the wool realized in the May sales last year up to 15d per lb in the grease.
The Cattle are a good lot, about half being of fattening age, and there are now 500 bullocks ready for market.
The Terms will be one third cash and the balance at 1, 2, and 3 years, bearing interest at the rate of 6 per cent. per annum. Taking into consideration the fact that the purchaser will have a return of over £30,000 within six months, the terms may be looked on as exceedingly liberal.
The Agents would strongly advise capitalists on the look out for an exceptionally good property to inspect Tulloona, for they can from long personal knowledge testify to its being one of the most heavily grassed and best fattening runs in New South Wales.
Any further information can be had on application to the agents,
PITT, SON, and BADGERY, Sydney.

The Kashgar, which has been running as one of the P. and O. Company's vessels since she was launched at Sunderland in 1873, has, for the first time, made a visit to this port. She is smaller than the other vessels on this line, but is a very comfortable-looking vessel. In length she measures 362 feet 5 inches, her beam being 36 feet 8 inches, and depth of hold 27 feet 4 inches. Her gross measurement is 2621 tons, and net register 1515 tons, her capacity under deck being 2513 tons. The hull is partitioned off by five watertight bulkheads, and the saloon, which is aft, is fitted up and furnished in the quietly elegant but withal exceedingly comfortable style for which the steamers of the company are so well known. The Kashgar is driven by compound engines, surface condensing, and working direct action on the screw. The cylinders are inverted, and are 50 inches and 80 inches respectively in diameter, the stroke being 51 inches. The engines, which are of 450 horse-power nominal, were made and fitted by R. and W. Hawthorn, Newcastle-on-Tyne. The ship left Galle on April 29, and from Galle to latitude 6° S., longitude 91° E., experienced moderate to fresh westerly and south-westerly winds with hard squalls, rain, and a heavy confused sea and hot weather, thence to latitude 17° S., longitude 97·30 E., strong northerly and north-easterly winds with hard squalls and heavy rain and a high turbulent sea. May 5, in the above position, barometer falling rapidly to 29·65, wind hauled round N.N.W., S.W., and in a heavy squall to the S.E., with torrents of rain and a very high cross sea. Barometer rising rapidly after shift of wind to the S.E., wind increasing to a heavy gale with heavy sea. This weather continued till May 8, in latitude 24° S., longitude 103° E., when it moderated; then had moderate southerly winds and heavy confused swell till May 11, latitude 33° S., longitude 113° E., when wind hauled to S.W., W., and N.W., increasing to a gale as we approached the land. May 12, 10 a.m., observed the land about Hillie's Point, thence to King George's Sound strong westerly gale, with hard squalls and rain, and a very heavy sea. From King George's Sound fresh westerly gales and high, confused sea, moderating as we approached Kangaroo Island. May 16, 2 a.m., passed Cape Borda, thence to Glenelg light northerly winds and fine weather. From Glenelg to Cape Jaffa experienced variable winds and squally weather, with drizzling rain; thence to Cape Nelson fresh S.S.W. winds with a high sea, light variable winds, and fine weather. Currents experienced: May 1st, West, 45m.; 2nd, N. 11° E., 37m.; 3rd, S. 50° W., 18m.; 4th, South, 24m.; 5th, S. 63° W., 15m.; 6th, N. 65° W., 38 m.; May 7th, N. 40° W., 31 m. From the shifting of the wind on the 5th May, and the action of the barometer with the unusually heavy cross sea experienced, Captain Seaton is of opinion that the vessel passed behind the path of a cyclone moving to the S.W. The ship behaved admirably during the bad weather, and only once shipped any heavy water. From Hobson's Bay to off Cape Schanck experienced light winds and cloudy weather; thence through Bass Straits thick rainy weather, clearing to the eastward of the Strait; thence to Sydney light variable winds and fine weather throughout. Detained for four hours to adjust machinery during the passage. The Kashgar is commanded by Captain Seaton, who was here some years since as an officer in the company's service.

The Potosi (s.), which went aground on Clark's Island on Friday afternoon, but got off again during the night, was examined by a diver on Saturday morning, who reported that there was no damage done, and she proceeded to sea at 8.30 a.m., and cleared the Heads at 9.15.

The German schooner Goleonda, from Hamburg, brings a general cargo. She left Hamburg on November 3, but got badly damaged in severe gales just afterwards; the lower topsail yard was carried away, and the bowsprit torn adrift. Put into Newhaven to repair. The boatman who brought her into port claimed salvage, but he was finally settled with for £150. Repairs were proceeded with, and the vessel sailed on. Put into the Isle of Wight two days afterwards from stress of weather, and sailed on January 3. Had fine weather for the first two days, then had some heavy west and south-west winds, and on the 11th the main-boom was carried away; got the N.E. trade winds on January 28, in latitude 24·16 N., and lost them in latitude 4° N.; crossed the Equator on February 18, in latitude 27·28 W., had good S.E. trades and lost them on March 6, in latitude 26·31 E. and longitude 30° W.; strong variable winds then followed, and the meridian of the Cape of Good Hope was passed on March 29, in latitude 39° S.; ran the easting down in latitude 42° S., with very unsteady winds—gales at times and then calms. On April 2, in latitude 38½ S., longitude 34·42 E., a most severe gale was experienced, and the sea which broke on board washed the longboat adrift and tore the tarpaulins from the main hatch. Another gale was met with on the 4th, and while the schooner was running before it the main boom again broke adrift. The gale continued off and on, with a high sea, till the 10th, and, though the decks were frequently filled by the heavy sea, no damage was done. Rounded the South-west Cape of Tasmania on May 15, and on the same day a gale began at N.W., and veered to S.W., blowing with great fury. The main boom got adrift for the third time. Since then had fine weather to arrival.

The ship Camperdown, from London, is the same vessel that brought out Government immigrants to this colony a year ago. She now brings a general cargo, and sailed from London on February 22, and the Lizard on the 24th. Had easterly winds for the first four days; then one week of west and south-west winds. The trades commenced in latitude 29·54 N. and longitude 17·33 W. on March 9; after proving moderate, they were lost in latitude 4° N. From thence had variable winds, mostly from east and south-east, to the Equator, which was crossed on March 29 in latitude 24·22 W. Took the south-east trades on the same date, and lost them in latitude 19° S. Had variable winds from E.N.E. and east, veering to north to latitude 22° S.; then southerly winds followed to latitude 53° south, from there south-east and easterly weather to latitude 41° S. North and north-west winds were experienced to the meridian of the Cape of Good Hope, which was passed on April 24. The easting was run down in latitude 42° S., with the winds from north and north-west, veering to south with moderate weather. On May 11th, encountered a hard gale from N.W., in which some heavy seas were shipped, smashing in the main deck hatch, and doing some other damage on deck. Had moderate weather from thence to King's Island, which was made on May 18th, thence calms and light winds. On April 28th, latitude 6·52 S., longitude 27·40 W., spoke the Renfrewshire, ship, from Barrow to Lacipede Bay.

The barque Clifton, Captain Sawyers, from Java, with a full cargo of sugar and kapok, came into port on Saturday night. She loaded at Sourabaya, and sailed on March 19, and was beset by light baffling winds to Lombok Straits, which the vessel came through on the 6th day out, and there took the south-east trades, which continued variable from south to east throughout. They were lost in latitude 34° S., and longitude 90° E., where the wind drew northerly, and remained at that quarter till rounding Tasmania on May 12. When in latitude 43·36 S., and longitude 139° E. on May 8, the barometer went as low as 28·30, the weather at the time being fresh and squally from north and east. Since rounding Tasmania, the wind has prevailed from S.S.E. with a strong current setting south by west. No vessels have been spoken.

H. M. S. Wolverene, Commodore Wilson, arrived in Farm Cove yesterday afternoon, from New Zealand; she left Wellington the 10th instant, and during the first two days had hard N.W. gales; from thence light winds with fine weather and calms. On the 20th, 330 miles from this port, spoke the ship Corby, from Newcastle, bound to Lyttelton.

The Allowrie (s.) left Eden at 6 a.m. on the 20th instant; called at Merimbula, Tathra, Bermagui, Montague Island, and Wollongong, and entered Sydney Heads at noon on the 21st. Experienced variable breezes to Jervis Bay, and light southerly breeze the remainder of the passage; fine weather throughout. Cargo—238 kegs butter, 1200 cheeses, 45 bags bacon, 9 cases cheese, 7 tubs cheese, 125 bags bark, 240 cases maizena, 4 bags wool, 20 cases butter, 24 cases fruit, 2 hides, 2 bags hides, 2 bundles 6 bags skins, 10 bundles block iron, 17 bags cattle food, 39 sheep, 49 pigs, 4 bags potatoes, 8 horses, 3 bales leather, 2 casks tallow, 1 case bacon, 5 coops poultry, 1 bundle leather, and 80 packages sundries.

The Alexandra (s.) left Cooktown on Saturday, May 14, at 9.45 a.m.; called at all Northern ports, and arrived at Brisbane on Friday, May 20, at 0.40 a.m.; left again at 0.30 p.m., cleared South Passage 4.45 p.m., and entered Sydney Heads at 10.10 p.m. on the 22nd; experienced fresh S.E. winds and moderate head sea to Brisbane; from thence to Smoky Cape strong S.E. winds, and very heavy head sea, with rain and light S.W. winds and fine weather the remainder of the passage; passed A.S.N. Co.'s steamer Porpoise 10 miles south of Seal Rock Point.

The Glenelg (s.) left Adelaide at 4.15 p.m. and the Semaphore at 5.30 p.m. on the 17th May; experienced fine weather throughout, and arrived at Sydney at 7 a.m. on the 22nd, and made fast alongside A. S. N. wharf at 8 a.m.

The Rodondo (s.) cleared Port Phillip Heads at 6 p.m. on the 20th; entered Port Jackson Heads at 10.50 p.m. on the 22nd. Experienced light southerly winds to Wilson's Promontory, from thence to arrival fresh northerly winds and fine weather.

The barque Nardoo, from Sourabaya April 8th, experienced some heavy weather in the longitude of Cape Leuwin, and lost a portion of her port bulwarks.

The Potosi (s.) passed Jervis Bay, bound south, at 4.40 p.m. yesterday.

The Macedon (s.) and Easby (s.) passed Sydney Heads, bound south, at 11 a.m. yesterday.

Notice is given by the Marine Board of Wellington that Captain Thomas Mosey, of the barque Mercia, reports that in rounding Cape Kidnappers his vessel slightly took the ground, Cape Kidnappers at the time bearing N. 70° W. (magnetic), distant about one mile, the lead just before showing 7 fathoms water. As the position of this danger is only approximate, vessels are recommended not to approach Cape Kidnappers nearer than two miles.

MONETARY AND COMMERCIAL.

SATURDAY EVENING.

The Import markets were quiet to-day, merchants being busy with their English correspondence. There was a decided improvement in breadstuffs, and Adelaide flour is held for £12, New South Wales, best brands, from £11 10s. to £11 15s. A fair amount of business is being done in the produce markets. Best lucerne hay, £3 to £3 5s.; inferior, £2 5s. to £2 15s.; maize, 2s. 3d. to 2s. 5d. Stocks of onions are almost exhausted, and they fetch from £7 to £7 10s. There will, however, be renewals of stocks on Monday. Warrnambool potatoes, £3 5s. to £3 10s.; butter, 1s. 3d.; eggs plentiful, 1s. 6d. to 1s. 8d.

Messrs. Macdermott, Brothers, and Scarr report having sold for Mr. E. J. Stephens his Tintinchilla station, Bulloo River, Queensland, with 9000 cattle (calves to count), horses, stores, &c., for the lump sum of £60,000—Messrs. Cudmore, Swan, and Co., purchasers.

Messrs. Griffiths and Weaver report having sold to the Peel River Land and Mineral Company, on account of Messrs. Macleay, Taylor, and Co., the Currawillinghi Station, Warrego district, with 72,000 sheep, 4000 cattle, horses, stores, &c., for £90,000 cash.

Messrs. Hardie and Gorman sold, on the ground, Gordon Park, Lane Cove Road, this afternoon, the whole of the Gordon Park Estate, 68 blocks, at prices ranging from £160 to £31 per acre: total amount of sale, £3050. They also sold, on the ground, Mount Druitt Railway Station, about 120 acres, at prices ranging from £150 to £17 5s. per acre: total amount of sale, about £2550.

Messrs. Melhado and Curtis report the yield of the Band and Albion Consols for the week to be 558 ounces from 730 tons crushed; copper plates, 84 ounces; total, 642 ounces. A dividend of 4s. per share has been declared.

Messrs. T. J. Thompson and Son report the yield of the New Chum Consolidated Mine, Sandhurst, to be 413 ounces amalgam from 90 tons of stone crushed, and that of the Garibaldi Mine to be 76 ounces amalgam from 37 tons crushed.

The P. and O. Company's steamship Kashgar arrived to-day from Galle, via Melbourne, with general cargo. The Camperdown, from London, also arrived, with a general cargo, valued at £37,400. The Nardoo and Clifton, from Java, bring 380 and 480 tons of sugar respectively.

From Messrs. Vivian Younger and Bond's metal report of the 8th April we learn that there had been a sluggish demand for metals during the month. 460 tons of Australian copper ore had been purchased at 12s. 4½d. per unit. The imports for the first two months of the year had been 11,852 tons, as compared with 13,196 tons, and 15,054 tons in the corresponding months of 1880 and 1879 respectively. The total stock on 1st April was 43,918 bars, and 10,300 bars were afloat for the home markets. Heavy arrivals had caused an increase of the tin stocks, which on 1st of April stood at 13,579 tons, with 3000 tons afloat for Europe. Owing to the reduction in the make of tin plates the market was gradually hardening, and 15s. 6d. to 16s. quoted for common coke. In April, 1880, the price was from 23s. to 25s.

From Messrs. W. Moran and Co.'s Calcutta tea circular for April 18 we learn that the market continued closed, only a few sales having been made during the fortnight. There had been some hail in the Northern district of Cachar which had caused considerable damage, but most gardens had had heavy rain, which would bring on the leaf. Accounts from all the other provinces were favourable, and the first musters from the Tezpore and Bishnauth districts in Assam were reported on, as showing quality above the average of the past few years.

The exports from the 1st April to 31st March, for the following years, had been:—1877-8: Great Britain, 33,132,398 lbs.; other ports, 391,952 lbs.—total, 33,524,350 lbs. 1878-9: Great Britain, 32,608,884 lbs.; other ports, 281,340 lbs.—total, 32,890,224 lbs. 1879-80: Great Britain, 37,624,146 lbs.; other ports, 356,390 lbs.—total, 37,980,536 lbs. 1880-81: Great Britain, 44,113,183 lbs.; other ports, 1,181,642 lbs.—total, 45,294,825 lbs.

The Sydney Morning Herald.

MONDAY, MAY 23, 1881.

At the quarterly meeting of the Licensed Victuallers' Association, held on Tuesday last, the police, the Government, the unpaid magistracy, and "certain persons in the community," were all attacked in their turn. The trade, it was said, had good cause for an action against the Government for breach of promise. The police wilfully shut their eyes to houses which are a curse to the people, and have taken to the making of baseless charges against "the respectable landlords of well-conducted houses, possibly wishing thereby to parade what in their idea is a laudable impartiality." As to the unpaid magistracy, or at least a section of them, their "actions have trumpet-loud proclaimed that they have made their oath to impartially minister justice to all men a secondary consideration, the first being the indulgence to its fullest extent of their most peculiar idiosyncracies. Your council would urge upon you the absolute necessity of exerting all your influence in order to have the trust which these men so shamefully abuse taken from them." Not content with these strictures on the police, the magistracy, and the Government, Mr. OLLIFFE indulges in a tilt at "certain persons in the community" who are superlatively good until found out, who follow in the footsteps of the Pharisee of eighteen hundred and odd years ago, and who, if they had their will, would improve licensed victuallers off the face of the earth. These all-round criticisms would have had more weight if the public had been favoured with some specimens of the facts on which they may be supposed to be based. In the absence of such facts the invective of the Licensed Victuallers' Association is not calculated to help its cause.

In this instance the assumption of superior virtue may certainly be credited to Mr. OLLIFFE and his associates. According to the statements made at this meeting, about the only decent people are licensed victuallers. They are really the unco guid. The Government, we are reminded, have turned false, the magistrates have perjured themselves, the police are wilfully neglecting their duty in one quarter, and as wilfully doing more than their duty in another. The Government, the magistracy, the police, and an otherwise considerable band of Pharisees are forming a conspiracy to injure respectable publicans. This will surely be news to everybody beyond the pale of the Licensed Victuallers' Association. If there are so many agencies being employed for the purpose of crushing respectable publicans, the public are certainly unaware of it. No doubt there is a section of the community who believe that all public-houses are superfluous, and who, for that reason, would improve them off the face of the earth. But publicans must know very well that up to the present their trade has suffered very little from men of this class. Instead of suffering, it has thriven, and with a rapidity that has characterised hardly any other trade in the country. Year after year the number of public-houses has gone on increasing, and publicans have gone on prospering.

Even the section of the unpaid magistracy to which the strictures we have quoted refer have not busied themselves with respectable publicans. In some instances they may have erred in judgment, in others they may have been over-zealous in what they have deemed a right cause; but their severest critics ought to give them credit for making an honest attempt to separate the doubtful or the bad houses from the good ones, and to protect those who keep the law from those who break it. If, at the instance of the unpaid magistracy, licenses have been withdrawn, the withdrawal has been from publicans who have been in the habit of selling in prohibited hours, or of harbouring bad boys, bad men, and bad women. The unpaid magistrates are not to be blamed for refusing licenses in localities where they would be a public injury, or for cancelling them where publicans have been convicted of repeated breaches of the law. If so, what are licensing magistrates for, and for what purpose are annual licensing meetings held?

It is not to the point to say that if a publican has broken the law, and has been punished, the matter should end—that it is un-British to punish a man twice for the same offence. The magistrates are bound to recommend licenses for persons who are not likely to break the law; and for that reason, if for no other, they are entitled to make a distinction between publicans who have been a credit to their trade, and those who have disgraced it. The public generally are not likely to share the opinion that, so far as the cancelling of licenses goes, the unpaid magistrates have shamefully abused their trust. They would have been more likely to hold this opinion if the majority of the magistrates had acted differently.

Everybody knows that there are two very different classes of unpaid magistrates. There are those who will grant every license asked for, who will compass sea and land to pack a Bench in the interest of those who want licenses, or are in danger of having them taken away. This class of magistrates seem to give no offence to licensed victuallers and their supporters. On the contrary, they are often pointed to as the true friends of the trade. But they are less truly such than even respectable publicans are in the habit of imagining. It is the indiscriminate granting of licenses—the multiplication of public-houses where they have not been wanted, and of houses of a useless if not of a questionable character—that has to no small extent led to the demand for licensing reform. The packing of the Bench for licensing purposes is to be regretted. About the first thing required in a new Act will be a provision to prevent the possibility of this. But if it has been the habit to pack the Bench on one side, it has been the habit to pack it on the other. The zeal of those who have been anxious to keep down the number of public-houses has been stimulated by the zeal of those who have been determined to keep the number up. It has been a game of diamond cut diamond. Sometimes the tactics employed on the one side have been as doubtful as those employed on the other. But, so far as the closing of objectionable houses goes, the public, instead of believing that a section of the magistracy have violated their oath, are likely to hold that they have done their duty, and rendered good service to the public. Not only so, if it be the business of the Licensed Victuallers' Association to uphold the character as well as to promote the interests of the trade, they may well claim to have done good service to the Association itself.

The same may be said of the police. No doubt there are bad policemen as well as good ones—those who wink at evils as well as those who attack them. If all policemen were good they would hardly be all popular. The task of the constable is for the most part a thankless one. If he does not keep his eye on publicans, he is accused of neglecting his duty; if he does, he is denounced as a hypocrite or a busybody. The public have not been made aware of the disgraceful houses the doings of which the police are conniving at; but, in the matter of the licensing cases which have been the subject of comment, the public have a conviction that the police have done their duty. Further, the police may rest assured that, as long as they do their duty they have nothing to fear from hostile criticism. While they stand by the public, the public will stand by them.

The complaint from Mackay, in Queensland, of a lack of white labourers has peculiar significance,

owing to the fact that the Mackay district is the chief centre of the plantation system of sugar cultivation, and that there South Sea Island labourers are more extensively employed than in any other part of Australia. The opponents of coloured labour have always claimed that the employment of that class of men must drive out European labourers altogether. The planters and their advocates, on the other hand, have insisted that by availing themselves of the cheap labour of Kanakas, they really created employment, which would not otherwise have existed, for white men, in conditions which mere savages could never fill. The fact that the planters are now crying out for white labourers may be accepted as a contradiction of the argument used by the extremists on the other side that there would be nothing for European hands to do where kanakas are employed. But it can scarcely be accepted as peremptorily settling the whole dispute. It remains still to be shown that some of the work which is cheaply done by the islanders might not have been at greater cost done by white men, and yet leave sufficient profit to enable planting to become an extensive industry. The present cause of the lack of white men is one which has often operated in Australia. A gold-field of some promise has been discovered at Nebo, an inconsiderable distance inland from Mackay, and, as usual, all the men who were at liberty to make a move have deserted their ordinary employment and rushed to the place. All that is proved, additional to the fact that white men are needed where kanakas are employed, is that there is no considerable surplus of white population in the district, which may mean that the attractions of the district were not such as secured European settlement in any considerable degree. The dispute anent cheap coloured and costly white labourers in Queensland for plantation work has been long and warm. The incident under notice will scarcely abate its intensity, nor will the main question be settled until it shall have been shown experimentally and practically that the cultivation of cane, and the manufacture of sugar, either by small mills or by proprietary or co-operative central mills cannot be carried into effect.

SIR WILLIAM MANNING was candid last week in revealing to the public the way in which cases are got up for Court by the lawyers. "A man might be sent for, and on being asked a question might say that the proceedings were very disorderly, and he would be told he might go. Another might say they were very orderly, and he would be told he could come. Then on the part of the defence, one might come and say, 'Well, I did not see anything very disorderly,' and he would be told he might go; while another who said the proceedings were disorderly would be brought to give evidence." No doubt this is exactly how the thing is done, and what else can be expected? No lawyer will take into Court, if he can help it, a witness hostile to his client. He wants to win his case, and if he does not do the best he can for his client, consistently with all legal forms, he does not fairly earn his fee. If his case is so bad that he cannot honourably do his best, he can throw up his brief, and save his conscience. But, unless popular opinion be much in the wrong, a lawyer's conscience is very elastic within the sphere of his strict professional practice. The use to be made of SIR WILLIAM MANNING'S revelation is that juries should be all the more vigilant. They have been told by a Judge of the Supreme Court that frequently they do not get before them the best witnesses for finding out the truth, but the worst, and that often if the names of all the witnesses to a transaction "were put into a ballot-box," and an indiscriminate selection made, "they would have a nearer approach to the truth." The inference is that as a rule they should to a certain extent distrust witnesses on both sides, keep their minds from bias, and try to grasp the undoubted facts of the case. That is what juries are invariably told to do by the Bench. But what if juries themselves are biassed? The right of challenge, in ordinary trials before a jury of twelve, is supposed to be the best means of securing impartiality, whereas often it is a subtle means of preventing it. "My man," says the Judge to a notorious cattle-stealer, for instance, "you are sure to have a fair trial." But a fair trial would lead to his conviction, and is therefore the last thing he wants, and so his counsel challenge man after man until they have got a "satisfactory" jury, and the conscious thief is acquitted. SIR WILLIAM MANNING sees faults in our procedure for the selection of witnesses. There are others also in the methods of impannelling juries, and there is room here for reform.

NEWS OF THE DAY.

THE Tunisian question has assumed a new phase. The Bey, who signed (as he himself alleges, under force) a convention with France, has been deposed by his suzerain. The Sultan declares that the Bey had no legal right to sign such a treaty. His signing it caused an angry feeling at Constantinople, as well as sensation throughout Europe. The Bey seems not to have yet replied to the Sultan; but the French Government has come forward as his champion, declaring its intention to uphold the Bey, maintaining that it is not within the power of the Porte to remove him. Will Turkey surrender her rights, real or fancied, or seek to maintain them in spite of French interposition, is a question, the solution of which will be watched with intense interest. For upon the way in which it is solved much depends. As the *Times* remarks, "so delicate is the poise of international interests throughout the Mediterranean and its shores, that no Power can stir a step without arousing susceptibilities which are far more easily excited than allayed." That the Sultan has sovereign rights over Tunis would almost seem to be recognised in the fact that the British Government, through its Secretary of State for Foreign Affairs, has sent an important dispatch to its Ambassador at Constantinople, bearing upon the critical state of affairs in regard to Tunis, and insisting upon the necessity of maintaining intact British commercial and other privileges at present secured by the treaty between the two countries. The Ministerial crisis in Italy, occasioned by the action of M. Cairoli's Government in regard to the Tunisian difficulty, is not yet at an end. It will be recollected that the Liberal members of the Government seceded, and Signor Sella was entrusted with the task of reconstructing the Ministry. This, after some days negotiating, he has failed to do. Meanwhile, there has been more fighting in Tunis between the French and the native tribes. The former were the victors, but there was considerable loss on both sides. The French troops are now in the occupation of two towns within about 20 miles of the Tunisian capital.

THE Land Leaguers are still keeping Ireland in a state of ferment by their activity, and the Government is doing its utmost by exercising the powers it possesses under the Coercion Act to prevent disturbances. Several arrests have been made within the past few days, including a Roman Catholic priest, the Rev. Mr. Sheehy, who has been delivering exciting and seditious harangues to the people.

WE are requested to insert the following notification, which we have received from Lieutenant Loftus, A.D.C.:—"With a view to meet the wishes and convenience of those who are desirous of evincing their loyalty to the Queen by attending the levee at Government-house on her Majesty's Birthday, and being anxious also not to disturb the enjoyment of a public holiday, his Excellency the Governor has decided to postpone the levee until Saturday, May 28th, on which day it will be held at 3 o'clock."

TUESDAY (to-morrow) being a public holiday, the following arrangements will be observed in the mail branch of the General Post Office:—The various offices of that branch will be open from 9 till 10 a.m. only, and the morning delivery only will be effected by letter carriers. The country mails usually dispatched in the afternoon and evening, also the coastwise, intercolonial, and foreign mails, will close at 9 a.m. The iron-pillar receivers and receivers at suburban post-offices will only be cleared at the first usual hour on that day.

ON Saturday and Sunday the weather was fine, but cool. On Saturday night a light shower of rain fell.

THE Sydney Grammar School Athletic Club held their eighth annual meeting on Saturday afternoon at the Association Cricket Ground. There were fully 4000 spectators present, amongst whom were included a large number of ladies; and the whole of the events passed off in a successful manner. Details will be found in another column.

THE Orient steamer Potosi, which went on the rocks at Clark Island on Friday night, was examined by a diver on Saturday morning, who found that the vessel had not been injured in any way, and she left for Melbourne about 9 o'clock.

IT has been ascertained that the name of the man who was picked up in a fit on the Darlinghurst Road, on Thursday, and died while being conveyed to the Infirmary, was Denis Warham. Deceased resided at No. 9, Judge-street, Woolloomooloo, and for some time past had been under the care of Dr. Shewin, who has certified that the cause of death was cerebral apoplexy.

IN the river Derwent, on the afternoon of the 9th May, between 3 and 4 o'clock, a boat, containing three men, was capsized in a squall in Sandy Bay, and, but for the bravery of four young ladies (says the *Hobart Mercury*), the accident certainly would have resulted in loss of life. It seems that the boating party, consisting of Messrs. Rickett, Wiseman, and York, took the licensed boat Haidee from the ferry and went out for a sail. They got safely to Sandy Bay, and landed near the Travellers' Rest Inn, where it is stated they had some liquor, which placed them in a condition unfitted for sailing a boat in the stormy weather of Monday. They set sail to return to town, but had not gone far when a squall struck the boat, and the sheet being fast, she heeled over, and filled, and the occupants were thrown into the water. The upset was seen from the shore by four young ladies, who, with commendable presence of mind and activity, manned a boat belonging to Mrs. Knight, and put off to the rescue of those struggling in the water. They reached the place not a moment too soon, for only one of the boating party could swim, and the others, who had been clinging to the upturned boat, were nearly exhausted—in fact, one of them had to be dragged into the rescuing boat by one of the ladies. They were all brought to shore safely, having had a narrow escape from drowning.

IMMEDIATELY after the arrival of the ferry steamer Wallaby at Lavender Bay at a quarter to 6 o'clock on Friday evening, the fireman, named John Butler, discovered that a man had fallen overboard. Butler threw off his coat, plunged into the water, and succeeded in rescuing the man, who proved to be Mr. John Collins, a resident of Pittwater. Collins was taken to the Union Hotel, and was attended by Dr. Browne, but, without recovering consciousness, expired at a quarter to 3 o'clock on Saturday morning. The doctor has given a certificate to the effect that death arose from capillary bronchitis.

ABOUT 6 o'clock on Saturday night a girl named Catherine Kelly, 11 years (a step-daughter to Mr. Henry Somers, of North-street), while carrying a baby in Sussex-street, was knocked down by a horse attached to a buggy. The horse had been left standing in front of a shop in Sussex-street, but, taking fright, had bolted. The children were taken to the Infirmary, where it was found that the elder had had both bones of the left forearm broken, while the infant had received slight injuries about the thigh. The horse and buggy were the property of Mr. Patrick Noonan, publican, residing at the corner of Hay and Dixon streets.

FRANK SILVA, a seaman of the barque Astronomer, which is berthed at the Australian Wharf, while going aboard at 9 o'clock on Saturday night, fell from the staging into the water. He sank immediately. Although efforts were then made by some of his companions, and subsequently by the Water Police, to recover his body, they were unsuccessful. The vessel was resting upon the silt, rendering it difficult to use the drags. At high water yesterday, however, the vessel was floated, and the Water Police obtained the body.

WHILE attempting to cross the road in Sussex-street, and near Blair's Hotel, shortly before 11 o'clock on Saturday night, an engineer named Francis Haughey was run over by a horse and cab. He was taken to the Infirmary, and on making an examination Dr. Williamson found that the ribs on both sides were very much broken, while his left arm had also been injured. Haughey died an hour after being admitted. Deceased resided at No. 11, Margaret-street. The cab which passed over him was numbered 473, and driven by Adam Archer.

A CHINAMAN named Van Toy, a gardener, residing at Bondi, jumped from a tramcar while it was in motion in Moore Park last evening, and received a slight cut on the head. Van Toy stated that he jumped because he found that he was in the wrong tram.

A WOMAN named Ellen Irvine was picked up by the police, while she was in a state of utter helplessness, near her house in Bowman-street at a quarter past 12 o'clock on Sunday morning. She was taken to No. 2 Police Station (Christ Church), and as she appeared to be dying, efforts were made to restore her, but unsuccessfully. Dr. Day was also sent for, but she expired before he arrived. Deceased was a washerwoman, and had been living apart from her husband. She was 48 years old.

A CARMAN named James Higgins, residing at No. 36, Marshall-street, called at the Infirmary at a quarter-past 1 o'clock on Sunday morning, having a severe wound on the scalp, four and a-half inches in length. His left ear had also been torn off from the top and displaced backwards. He stated that his horse took fright at the tramway, and shying, threw him, when his head got jammed between the wheels and a post in Oxford-street. Higgins, having had the wounds dressed by Dr. Williamson, declined to be admitted into the institution, preferring to go home.

A CORRESPONDENT of the *Brisbane Courier*, referring to the new French steamship service to New Caledonia, says that it involves the withdrawal of the Mauritius portion of the present Messageries-Maritime contract, as Mauritius will be served by the steamers calling there on their way to and from Suez and Noumea via Sydney. This accounts for the payment of so large a subsidy as £151,000. The contract speed of the French boats is to be fifteen knots, but, with the deviation to Mauritius, their passages will be longer than those of either the P. and O. or Orient boats. The reason why the new contract does not begin for two years is that the steamers, to average the stipulated speed, have to be yet built, and the premium given by the Government for French-built vessels has enabled the contractors to arrange for building them in France, notwithstanding the receipt of lower tenders from English firms. As to the proposed German lines, the correspondent says few are aware of the really firm grip the German business has got of Australia since the Melbourne Exhibition. The Continental trade comes through London principally, and is therefore less noticeable; but the correspondent is confident that the German steamship lines will be run, and made to pay.

AS the paddle steamer Fairlight, which had made a trip to Manly Beach, was coming alongside the Port Jackson Steam Company's wharf last evening, one of the passengers, named Oliver Maxwell, attempted to jump ashore. He fell between the wharf and the steamer, and was severely crushed between a pile and the paddle-box. He was removed to the Infirmary, and examined by Dr. Williamson, who found that the lower part of his chest had been severely injured, and depressed. The man is alone to blame, as notices have been posted about the steamer and the wharf, cautioning people against the practice of jumping from a vessel before it has been made fast. Maxwell is a tobacconist, residing in Market-street. On inquiring at the Infirmary at a late hour last night, we learned that he was progressing favourably.

A FORTNIGHT ago we reported an attempt that was made to set fire to a house at Marrickville in the occupation of Mr. Thomas Bickerdike, a builder. By the timely discovery of the fire the building was saved from destruction. Early on Saturday morning a weather-board house adjoining the one already referred to was totally destroyed by fire under circumstances which point to the probability of the mischief having been caused by the person who attempted to destroy Bickerdike's house. The house that has been burned was in the occupation of a Mrs. Alice Smith, and was situated in Alma-street. At twenty minutes past 2 o'clock she was awakened by hearing a cry of fire, when she found that a partition dividing her bedroom from that of her step-brother—a Mr. Eagar—was in flames, and that a portion of the bedding, as well as her nightdress, had become ignited. She called Mr. Eagar, and both at once got out of the house, which, together with its contents, was speedily consumed. Owing to the praiseworthy exertions of Messrs. Jolly and Hudson, who applied buckets of water, the fire was prevented from extending to the adjacent houses. The local brigade, as well as a number of engines belonging to metropolitan and suburban companies, were also at work. The house was owned by Mr. E. Candell, of Petersham, and was uninsured. It consisted of four rooms, and was built upon stone supports 18 inches in height. It is believed that the fire originated under the flooring-boards. In addition to furniture and personal effects the house, it is said, contained £50 in notes and £20 worth of jewellery. A portion of the contents were insured by Mrs. Smith in the Liverpool and London and Globe Office for £145, while Mr. Eagar's loss is covered by a policy in the Imperial for £50. On Saturday the *debris* was turned over, and the remains of a gold and silver watch, as well as those of some gold brooches, were found. Near the house which was burned down is one occupied by Mrs. Beard, a grocer. Under this a bottle of kerosene, as well as a bag saturated with kerosene, was found; while a man's coat was found hanging upon the fence, and a box of matches was picked up near the place.

THERE was a narrow escape from a large fire in George-street North last evening. A lighted match seems to have fallen through an area grating of premises occupied by Mr. Joseph Marshall, baker; and owned by Mr. Kidman. Some bags which were on the basement floor became ignited, and the fire communicated with some bags of flour. Smoke was seen issuing from the premises by Mr. Andrew Wakeley, and he broke open the door. With the assistance of some members of the North City Brigade and some others the fire was extinguished before much damage had been done. The engine of the Insurance Companies' Brigade, as well as several belonging to other companies, arrived, but were not required.

HENRY VAUGHAN, aged 3 years, whose parents reside in Young-street, Redfern, was taken to the Infirmary yesterday, in consequence of having fractured his leg by falling over a skipping rope. The following cases also received treatment during Saturday and Sunday:—Alfred Downey, Pitt-street, Ultimo, fracture of right forearm, caused by being caught in a carding-machine; Michael Walsh, a youth, residing in Harrington-street, fracture of leg, caused while playing football; Henry Laurence, labourer, Harmer-street, Woolloomooloo, fracture of arm and injury to the thigh, caused by falling from the roof of a house, a distance of 20 feet, while erecting a chimney-pot; Anna Hense, aged 3 years, Foveaux-street, fracture of right arm, caused by a fall; William M'Pherson, Liverpool-street, wound on chin, caused by falling off a cart; William Rowling, 5 years, Glebe, wound upon leg, caused by falling upon a glass bottle; Henry Johnson, Hay-street, contusion on side, the result of a fall from a scaffold; James M'Auliffe, Haymarket, injury to chest; John Clarke, Crown-street, sprain of muscle, caused by tumbling in a circus; Thomas Carroll, Kent-street, severely lacerated wound on finger, accidentally chopped with a butcher's knife.

INTELLIGENCE of a most horrible massacre, perpetrated at Tapitawa, one of the Line Islands, was brought to Fiji on the 24th April, says the *Fiji Times*, when the schooner Elizabeth returned from a trading cruise:—"Some years ago a branch of the London Mission Society was established in the island from Honolulu, under the charge of a Sandwich Islander named Kabu, who succeeded in proselytizing the entire community. Upon their embracing Christianity he induced them to give up all their weapons into his care, and everything went smoothly for a while. Latterly, however, the people living on the southern part of the island became dissatisfied at the constant requisitions made upon them for copra, and, considering Kabu's Christianity too dear at the price, they apostasized. Kabu then preached a crusade against them, and 'arming his followers' led them on in person, beating two clubs together, and shouting 'Kill! Kill!' The carnage which followed is almost too horrible for belief, not less than 1000 men, women, and children having been indiscriminately massacred. The most atrocious enormities were practised on their victims by the victorious party, and after the general slaughter the wounded were collected together, piled one on top of another, and the roof of an old house placed over them, which the miscreant Kabu fired with his own hand. When the Elizabeth was at the island the beach was still strewn with the decomposing bodies of men, women, and children, but the arch fiend of the transaction had been taken to Honolulu in the Hawaiian vessel Stormbird to answer for his almost incredible crime."

OUR TRAMWAY SYSTEM.

TO THE EDITOR OF THE HERALD.

Sir,—I beg to call your attention to the overcrowding that is now of daily occurrence on the Paddington and Waverley line of trams, and should like to inquire whether the Government have any right to put travellers to the inconvenience and annoyance this overcrowding causes.

Travelling this afternoon from Sydney to Paddington, the tram was full before we left the waiting-room; and yet at each stopping-place the guards crowded more passengers in, allowing them to stand in front of those sitting down; and, as the space between the seats is limited, it will easily be understood the annoyance those sitting down had to undergo.

Should a 'bus driver overcrowd his 'bus and it be noticed by the inspector, he is very properly punished for it; but the overcrowding in the 'buses was never carried on to the extent it is in the trams, and I think some steps should be taken to prevent it.

It is no justification for this state of things to say that the tramway system has been such a success, &c., that it has assumed proportions for which the Government were not prepared, we have no right to be penned up in the carriages in this manner, and if there is not room, persons should be compelled to keep out, and find other means of conveyance.

If it was a matter of only occasional occurrence no one would complain much, but it occurs several times a day.

I would suggest that the conductors be made liable to a penalty similar to drivers of licensed vehicles, which would, I think, prevent them putting fifteen persons in where it is intended there shall be only ten, and some regulation of this kind is, I believe, highly desirable and very necessary.

I am, &c., TRAVELLER.

AN AMERICAN NO MAN'S LAND.—It would appear from a report recently published by the Commissioners of the United States Land Office that, owing to some inexplicable error or omission in the official survey of the Republic's territories, there exists at the present moment a vast domain within American frontiers of which no cognisance has been taken by the Government surveyors, and which is, therefore, a sort of No Man's Land, belonging to no State or territory, forlorn of any administrative mechanism, and subject to no human laws. This domain, in shape a parallelogram 150 miles long by 40 broad, contains nearly four millions of acres, and is, therefore, three times as large as the State of Delaware. It lies to the northward of Texas and to the southward of Kansas and Colorado, between New Mexico and the Indian Territory, and is described as one of the most picturesque and productive tracts in the Far West, consisting chiefly of rich corn-growing land and luxuriant pasturage. But its inhabitants, some two thousand in number, are by no means farmer and graziers, stockmen and shepherds. Outlaws, horse-stealers, desperadoes of every description have found a refuge in this masterless realm, where they demean themselves in such sort as to be the terror of the neighbouring States and Territories, which have appealed to the United States Government to incorporate this nest of bandits into one or other of themselves, so that it may be submitted to a *régime* of law and order.—*Daily Telegraph.*

THE DETACHED SQUADRON.

[BY TELEGRAPH.]

(FROM OUR OWN CORRESPONDENT.)

MELBOURNE, SUNDAY.

The Cape Otway station was enabled to exchange signals with the flagship of the squadron, and conveyed the Governor's message to the Admiral respecting the accident to H.M.S. Bacchante. A boat came to the shore last evening, but a blue light was shown at the west end of the Otway reef. The boat was evidently steering direct for the lighthouse, with the object of landing on the coast, which, if carried out, must have resulted in a disaster, as there is no landing-place except at Blanket Bay. Danger signals were shown from the shore, and the boat was so close to the dangerous surf that those on shore were able to hear the voices of its occupants. A voice was heard above the surf, asking if the boat could land, and on being answered in the negative, the boat returned to the squadron. The vessels sailed for Port Phillip, and three of the squadron entered the Heads about 4 o'clock this afternoon. The Cleopatra had been sent back to Albany in order to accompany the Bacchante to Melbourne. Having taken in their pilots outside the Heads, the three vessels—the Inconstant, Tourmaline, and Carysfort—proceeded up the South Channel, in the face of a strong north wind. They anchored in Hobson's Bay at half-past 9, the night being very dark and stormy.

AMUSEMENTS.

THEATRE ROYAL.

"The Upper Crust," one of H. J. Byron's later comedies, was produced at the Theatre Royal on Saturday night, under the management of Mr. Arthur Garner, and was witnessed by a large audience. It is essentially a one-character drama, for it turns entirely upon the efforts made by Barnaby Doublechick (of the Diaphanous Soapworks) to get into society, or as he expresses it, "be one of the 'Upper Crust.'" His business, his ideas, and his mannerisms are all against him; but he finally attains his object through his daughter Nora. Her he has been endeavouring to persuade into a marriage with a well-meaning, but somewhat boorish young baronet, Sir Robert Boobleton, and to forget Walter Wrentmore, an architect—whose parentage is shrouded in mystery — to whom she has long given her heart. Doublechick and the Baronet are eager for the match; but Boobleton's mother, whose own origin is low, is opposed to it; Lord Hesketh, who, in consideration of money favours, has done his best to raise the Doublechicks in the social scale, is opposed to it; and Kate Venimore (Lord Hesketh's niece), who wishes to serve Nora and to secure the Baronet herself, is opposed to it. The effect of this is that a misunderstanding between Nora and Walter is cleared away; and when the young architect is discovered to be the deserted son of Lord Hesketh, Doublechick unceremoniously breaks his bargain with the Baronet, who is incontinently secured by Kate. The soapboiler, in becoming father-in-law to a lord, is rendered happy, and the curtain falls after Doublechick has spoken a neat little "tag." From first to last the soapman is the prominent figure in almost every scene; and Mr. Richard Stewart, who enacts the part, has every opportunity of displaying his ability in low comedy. No one who has seen "Our Boys" can fail to trace the strongest resemblance between the characters in it and those in "The Upper Crust," and the latter may indeed be not inaptly described as "Our Boys" and—water, since it certainly does not equal the earlier play. At the Folly Theatre, in London, this drama has, we observe, been enjoying one of those inordinately long runs which have become the fashion of late years; and Mr. J. L. Toole is the Doublechick. Well, Mr. Stewart is certainly not such an actor as Mr. Toole is, but his impersonation is a vigorous and consistent one. In the picture he draws there may be wanting delicate finish; but the lines are definite, if somewhat coarse, and the salient points of the conception are easily intelligible. Doublechick's blunders and eccentricities raised laugh after laugh on Saturday night; and in spite of his somewhat selfish attempt to force his child's affections, the audience seemed to recognize the sterling worth of his nature, and to feel for him that liking which is always won by a kindred character—Middlewick, in "Our Boys." The other parts are somewhat shadowy, and the actors and actresses had little else to do than than speak and move naturally, and dress well. Mrs. Marion Stammers never appears to such advantage as when impersonating a fashionable matron, and in Lady Boobleton she has such a part. She dressed very richly, and played faultlessly. Miss Alma Santon was a bright, pleasant Nora; and Miss Annie Taylor a coquettish lady-like Kate Venimore. Mr. Titheradge, who played Sir Robert Boobleton, committed, at first, the mistake of making the baronet's mannerisms seem like affectations; but he soon improved and thenceforward acted with his customary intelligence, the scenes with Doublechick and Kate being especially creditable to him. Mr. Cates looked well and acted pleasantly as Walter Wrentmore, but the part affords little scope for an actor of his talent. Mr. Garner made up wonderfully well as Lord Hesketh. During the three acts into which the play is divided the scene is laid in Doublechick's drawing-room, and the set is perhaps the most beautiful Mr. George Gordon has yet designed for the Sydney stage. The stage is so shut in as to seem like an elegant apartment, and the furniture is sumptuous and artistic. "The Upper Crust" will be played until further notice.

Hudson's Surprise Party, the members of which are well known in Sydney, have been subjected to an unpleasant experience lately, having been quarantined on board the Brisbane for the last month; but as it is understood that pratique will be granted this morning, they will be released from their involuntary imprisonment. It will be seen from our advertising columns that they will proceed on a tour to the Western district before opening at the School of Arts, in Sydney. The troupe is announced to appear at Bathurst to-morrow evening.

DEPOSITION OF THE BEY OF TUNIS.

CONSTANTINOPLE, MAY 21.

The action of the Bey of Tunis in signing the recent treaty with France, in which the Sultan declared the Bey went beyond his legal rights, has aroused much angry comment here. The Sultan has now formally deposed the Bey as ruler of Tunis.

THE FRENCH GOVERNMENT AND THE SULTAN.

CHRISTMAS CARDS.

By the enterprise and liberality of Mr. John Sands, publisher, of George-street, a new industry has been started in Sydney, and art throughout the colonies has received a great impetus. Anyone who visits the Art Gallery in the Inner Domain, during the week, will acknowledge the justness of our remark, for there he will see 662 designs for Christmas cards, sent from all parts of the colonies, in response to Mr. Sands' offer of fifty guineas in premiums for the best designs, of a distinctively Australian character, to be reproduced by him in chromo-lithography, at his new factory. The prize money was allotted thus—1st premium £15, 2nd £10, 3rd £7 10s., 4th £5, 5th £2 10s., 3 at £2, and 6 at £1, on the following conditions:—All designs to be executed in colours, and not to exceed, including border, 8 inches x 6 inches. All designs submitted to become the property of Mr. Sands, by whom the non-successful ones will be exhibited for sale, and a moiety of the proceeds thereof returned to the designer; the judges to be Mr. E. Combes, C.M.G., M.L.A., Mr. E. L. Montefiore, and Mr. E. Du Faur." From one of Mr. Sands' circulars we extract the following very sensible remarks:—"Hitherto we have been compelled to import these cards from England, America, and the Continent, where they are produced in immense numbers; but being published for climates of temperature and season different to our own, they are never specially appropriate here. In order that the competitors should leave the beaten track, I made it a condition that Australian subjects only should be used, with the result that instead of sending home cards with ice, holly, &c., our friends will have the pleasure of receiving them enhanced by seeing on our cards subjects totally new to them, and at the same time be able to notice the advance Australia is making in the fine arts. It is a somewhat hazardous experiment I am trying in entering the lists against old-established and world-known houses having the experience of years and the advantages of immense establishments behind them, but I felt that there was sufficient talent in the colonies to warrant me in obtaining the designs." And the result has, so far, justified the expenditure, for of the 662 designs exhibited, while many are inartistic and evidently the work of tyros, there are many which certainly rival the best imported work. The Minister for Education placed the Art Gallery at Mr. Sands' disposal, and in what were the French and Belgian Courts during the International Exhibition, the designs are now arranged. On Saturday there was a Press view, and the judging was done. The first prize fell to Mrs. F. W. Stoddard, Tasman House, Sydney, and was well earned. On a smooth lake floats a gondola crowded with fairies and sprites in diaphonous robes, and the elves are so grouped that by means of their bright forms, the legend, "A Merry Christmas," is spelt out. Overhead float two aerial shapes, whose star-pointed wands direct one's gaze to the glory of the southern heavens—the Cross. Of course the scene is a night one, and the dusky blue tones of the picture are beautiful. Mrs. Stoddard's design is numbered 491. The second prize is taken by Miss Emma E. Mather, Hobart, Tasmania. Her picture, numbered 183, represents a spray of flowers. The other prizes are allotted in the order in which we refer to the pictures. No. 170, 3rd prize, Mrs. Fred C. Rowan, Macedon, Victoria, a pair of blue wrens and a butterfly. No. 654, 4th prize, Mrs. Edward Forde, Darlinghurst. The design shows a cluster of puce and amber berries, overhanging a little pen and ink vignette of the Prince Consort's statue, Hyde Park. No. 602, 5th prize, Charles Turner, St. Kilda, Victoria; a pair of cockatoos, behind whose sulphur crests a range of distant hills appears. No. 336, E. M. B. Gilbert, Hawthorne, Victoria, a somewhat hardly painted group of shells and rocks. No. 282, Miss H. Hambridge, Kensington, South Australia, shows Devil's Peak, on the Flinder's Range, and is one of the most exquisite things in the collection. The colouring is harmonious, the distance good, and the figures animated, but the scene is not distinctively Australian, as it would be were an aboriginal, for instance, introduced in it. No. 589, Robert William Bugg, Collins-street, Melbourne, "Port Lonsdale, Port Phillip." No. 424, Miss Robinson, Five Dock, "Crested Cockatoo." No. 409, by Miss Devine, Tasman House, Sydney, shows a female figure surrounded by native birds and ferns, and is an extremely elegant design. The face of the girl is beautifully painted, and the birds are well grouped; but the arms of the figure are somewhat out of drawing, and the swan might well have been the Australian bird. We think, though, that the work deserved a higher place in the prize-list than it attained. No. 376, Isabel de Mole, Kew, Victoria, "Ferns, flowers, and berries." No. 15, by C. H. Hunt, Bond-street, Sydney, is a thoroughly Australian picture, well designed, drawn, and coloured. It shows a fairy-like little girl, who has evidently run up from a picnic party in the background, proffering a piece of Christmas pudding to a tired swagsman, who has just sat down under a shady tree to drink a pannikin of tea. No. 95, Mrs. Chas. Oakley, St. Kilda, "Wild flowers and tablet." No. 169, Mrs. Rowan, Macedon, Victoria, "White Satin Butterflies." The exhibition was visited on Saturday by Lady Augustus Loftus; and to-day, when a private view will take place, her ladyship, and several members of the Ministry, will probably be present. To-morrow, and subsequently until further notice, the exhibition will be open to the public. The arrangement of the competition has been carried out with taste and judgment by Mr. Curtis, who superintends the chromo-lithographic branch of Mr. Sands' business.

For printing these designs Mr. Sands has imported several large chromo-litho machines, duplicates of those used by such houses as those of De la Rue, Marcus Ward, Goodall, and Prang, and has obtained the services of a number of clever lithographic draughtsmen and printers. He is now preparing for publication a series of views of Sydney harbour and its neighbourhood, printed in fac-simile of water-colour sketches specially drawn by Mr. J. C. Hoyte; and these views will be on exhibition to-day. In addition to the 50 guineas awarded in premiums for the designs, he intends to offer 25 guineas in premiums for verses and sonnets appropriate to them; and particulars of this competition will be advertised at an early date.

GRAFTON REGATTA.

GRAFTON, Saturday.

The general entries for the Grafton regatta closed to-night. Only one event lapsed from insufficient entries. Altogether 50 entries were made for 12 events. Laycock, Rush, and Messenger are in the Champion Handicap Skiff Race. M'Mahon has feather weight; N. M'Donald and Messenger, 10 lbs. each; and Laycock, 60 lbs. For the Sailing Skiff Race there were four entries, including A. Mountcastle's Violet. The entries for the Double Sculls Race, all comers, were:—M. Rush and M'Mahon, D. and N. M'Donald, Laycock and Messenger. Everything passed off well, and the result affords great satisfaction.

The excitement about the regatta is gradually increasing. A number of pullers have already arrived, and are hard at work. Laycock and Rush are closely watched, and there is an evident desire to back the former, but numbers appear confident that Rush can land the money. The weather is beautifully fine, and if it continues so, the largest gathering ever seen in Grafton is expected.

THE TURF.

A number of interesting race meetings will be commenced to-morrow, and amongst them are those of Parramatta, Newcastle, Mudgee, the Queensland Turf Club, the Adelaide Racing Club, and the Melbourne Hunt Club. Everything has been done by the committee and the secretary to make the Parramatta meeting a success, and excursion trains will leave Sydney at convenient times to convey visitors to the scene of action. His Excellency Lord Augustus Loftus has signified his intention of honouring the proceedings on the second day with his presence; and a numerous and fashionable attendance may be expected to put in an appearance on the time-honoured course, which has been so much improved that old friends would hardly recognise it. Attention is drawn to the fact that ponies will be measured at Hack's Hotel at 10 a.m. on each day of the races.

Judged by the interest that is taken in the various events the Newcastle meeting has every indication of being most enjoyable, though the fields will hardly be so numerous as the quality of the programme deserves.

A fair amount of speculation has taken place during the last few days upon the Adelaide Cup, for which Progress, the A.J.C. St. Leger and Sydney Cup winner, is most in favour at the short figure of 2 to 1, while Mata, whose disqualification has not been endorsed by the Adelaide racing club, is next in request at a point more. Odd Trick, Suwarrow, and Rothschild have also been fairly supported, and a great race is likely to be witnessed.

The following are the entries and the weights for the principal events that are to be decided at the meetings referred to:—

SYDNEY GRAMMAR SCHOOL ATHLETIC CLUB.

Skinner and A. K. Farrar; Referees for Walking, Messrs. E. Meyrick and H. L. Anderson; Timetakers, Messrs. L. Whitfeld and C. E. Howlett; Starter, Mr. C. H. Francis; Hon. Secretary, Mr. R. Thompson.

The eighth meeting of the Sydney Grammar School took place on Saturday afternoon, at the Association cricket ground, Moore Park, in the presence of a very large number of spectators. The weather was beautifully fine and clear, with a cool breeze from the southward to mitigate the heat of the sun's rays. The boys from the school mustered in great force, and were loud in their approbation of the doings of their schoolfellows, every close finish in the races being watched with eager interest. The parents and friends of the competitors were also in attendance in large numbers, the grand stand being completely packed, while the lawn was also thickly thronged, and the terraces and other parts of the ground were fully patronised—fully 4000 spectators being present. The various events were very successfully carried out, but the time-keeping appears open to considerable suspicion, as it is in many instances extraordinarily fast for boys, and occasionally equal to professional time, especially in the shorter races. The most exciting contest of the day was undoubtedly the two-mile bicycle race, which resolved itself into a match between F. W. Sharp and M. A. Hilliard, the latter winning after a magnificent struggle by less than a yard in the extraordinary time of 7 minutes 52 seconds. Subjoined are the particulars of the events:—

BOWLING.

On Saturday afternoon a match took place on the Cook Park green between the City and Balmain bowling clubs. As will be seen by the appended figures, the Balmain players in No. 1 rink finished considerably behind; but the suburbanites in the other two rinks led their opponents, and secured a majority on the total. "SULPHOLINE LOTION."—An External Means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s 9d.

It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s 9d and 4s 6d. Sold by all Chemists. REVIEW.

Results of Astronomical Observations made at the Sydney Observatory, 1877 and 1878, under the direction of H. C. RUSSELL, B.A., F.R.A.S., Government Astronomer for New South Wales. Sydney: Thomas Richards, Government Printer. 1881.

During the last few years the Observatory on Flagstaff Hill, under the management of Mr. Russell, has been completely remodelled. To the thousands of citizens who, as they are hurrying through our busy streets, often pause to glance up at the time-ball or at the flags which indicate what vessels are entering port, the old building seems very much what it has been for a quarter of a century. But a visit to the institution and an inspection of its present equipment will show how completely almost everything has been changed. The Flagstaff Hill Reserve itself has been made as neat and attractive as it was formerly slovenly and repulsive, and probably there is not a spot within the whole metropolitan area from which, on a fine day, such a charming view can be had both of the harbour and the city. Mr. Russell places, as a frontispiece to his work, a well-executed photograph of the building, but no photograph could do justice to the view of sea and city to be had from that spot. As little can the equally excellent photographs of the principal instruments used in the institution convey to the public an adequate idea of their exquisite workmanship, their marvellous accuracy, and their immense power.

The great Shroeder telescope, which is mounted under that black-looking dome about which children, as they pass through the streets, or down the harbour, often ask questions which their parents are unable to answer, has an object glass of 11½ inches in diameter. It was constructed with unusual care, is worth about £1500, and is held to be one of the best and most effective in the world. But the pride of Mr. Russell's establishment is the great transit telescope with its accompany-reverser, and the two opposite collimators. The telescope has an object-glass of 6½ inches diameter and a focal length of 85 inches. It is impossible to give a description of this magnificent instrument, with all its appendages, that would be intelligible to the general reader. Nothing but a personal inspection could convey a correct idea of its form; and only by witnessing actual observations could the range of its use be understood. The astronomer gives a description, as well as a fine photograph of it, in his work, from which scientific men will instantly comprehend the character and power of the instrument; but if we were to quote it, general readers would be left nearly as much in the dark as before. The principal chronographs are also photographed in this work, but they, too, must be seen to be understood. There are a hundred little and some great improvements introduced into the establishment by Mr. Russell and his assistants, all tending to secure accuracy; and from the twenty-one pages of introduction, which is all the reading matter in the book, the bulk of it consisting of astronomical tables, scientific men will at once perceive that the Government Astronomer of New South Wales has obtained an establishment sufficiently well equipped to enable Sydney to take rank among leading observatories, though necessarily on a smaller scale of magnitude.

After the explanatory introduction there are seventy-seven pages of astronomical results of observations, the purpose of these observations being to determine the positions of prominent stars in the southern hemisphere, for the use of surveyors engaged in the triangulation of the colony. Several thousand observations were made during 1877 and 1878 to ascertain the right ascensions and north polar distances of several hundred stars, and the catalogues now published will be of value not only to this colony, but to astronomers in general all over the world. To the ignorant all this may seem a waste of money, and they ask—what is the good of knowing what particular place any star occupies in regard to the earth? The good is immense. Without this knowledge mariners would be at a loss at sea, for no correct chart could be made to guide them over the pathless deep; and travellers would be lost in desert lands, for no maps could be made, and no sure means placed in their hands to enable them to find their way. And, to put it in a more homely way, without this knowledge we shall never be able to say in New South Wales, with sufficient accuracy, whether the land for which one man has paid does not belong to another man. Hitherto our surveying has been of the roughest kind, and to this day the authorities are unable to say what is the area of the colony, and they cannot define its boundaries. If Parliament had been liberal enough in support of the Observatory and its attendant trigonometrical survey half a century ago, many agrarian quarrels might have been prevented, for the State would have known exactly what land it had to lease or sell, and where it was situate. Apart from such practical considerations, New South Wales should not be indifferent to the advancement of science, and to the general progress of mankind. It should rather be her ambition to place herself in communication with all those enlightened nations that are most distinguished for their efforts to encourage learning, to promote the diffusion of knowledge, to stimulate discovery and invention, and to aid in every way man's conquest over nature for the general happiness of mankind. Astronomy is a fascinating study, and its practical results are as beneficial as its pursuit is pleasing. The earth is a small orb in space, surrounded by countless millions of orbs, with which she is connected by ties invisible, but none the less real. The astronomer's aim is to find out what those ties are, in what way they affect us, and how we may best turn them to account. Mr. Russell is a worker in this wide field, and one whose labours have already met with honourable recognition abroad. The small volume he has now issued, under the authority of the Government, will not find many readers, but it will be a standard of reference for our own surveyors engaged in practical work, and it will be a contribution from New South Wales to that astronomical treasury of knowledge which is being enriched every year by every people who claim a place in the ranks of civilization.

CITY BUILDING LAND.—An opportunity will be offered on WEDNESDAY, 25th May, to purchase about the very best building land in Surry Hills, close to the city and Oxford-street. The land to be sold on that date comprises that magnificent corner block of city building land at the junction of those two main thoroughfares, Crown-street and Albion-street, Surry Hills, next to the property of the late R. Uther, Esq. Three of these sites have frontages to Crown-street, six front Albion-street, and in addition there is one grand site fronting Riley-street. These sites are in the best part of Surry Hills, not far from the new Public school, very convenient to and yet sufficiently removed from the Oxford-street tramway. The land occupies about the highest position of any around Sydney, and is within ten or twelve minutes' comfortable walk through Hyde Park to the centre of the city. No better opportunity is likely to occur for builders to purchase, or for capitalists and investors to erect good residential or business premises. Large sale plan is on view at the Rooms, and every information will be afforded to parties making inquiries. Experts state that during the next decade city building land, if occupying an undoubted position, will at least double in value. Consequently now is the time to purchase, and erect dwellings or business premises, which will hereafter give a certain and highly remunerative return. The title is the well known Riley Estate. The sale will take place at our Rooms, on Wednesday, 25th May, at 11.30 o'clock in the forenoon. Hardie and Gorman, auctioneers.

POLICE.

CENTRAL POLICE COURT.

On Saturday morning the bench was occupied by Messrs. Crane, Deane, and W. C. Browne.

Alexander Frazer, a lad 15 years old, was sent to gaol for a month for stealing a till containing 20s., the property of Charles Curran.

Jane M'Donnell, for having insufficient lawful means of support, was ordered to a month's imprisonment.

Charles H Wilkes was committed for trial at the Court of Quarter Sessions for obtaining from Richard Irwin one overcoat, by means of a valueless cheque.

WATER POLICE COURT.

On Saturday the Water Police Magistrate was assisted by Messrs. L. Scott and V. Browne.

Joseph Thurlow, agent for Eliza F. Taggart, complained against Charles Kennedy, a carpenter residing in Dowling-street, Surry Hills, for removing his goods from the house of the complainant, so as to prevent her from distraining upon them for arrears of rent. Kennedy was the occupier of a house in Taggart's-lane, belonging to Mrs. Taggart, and allowed the rent to get into arrear until it amounted to £1 15s. He pleaded guilty to unlawfully removing the goods, and was ordered to forfeit double their value, viz., £10.

Hannah Jones, for being drunk and disorderly in the Domain, was fined 20s., and for using indecent language, was also fined 40s.

William Willoughby and *Mary Ann Thompson*, for misconducting themselves in the Domain, were also fined, the former 20s., and the latter 40s.

James Conden, plasterer, for assaulting one James G. Alderdice, was ordered to pay a penalty of 20s.

Philip Archbuld, alias *Archbold*, was charged with stealing on the 8th July, 1880, one dozen felt hats, of the value of £5, the property of Messrs. Horace Woolnough and Co. Prisoner was formerly in the employment of the prosecutors. On the 8th July last he was sent to procure for the firm three dozen of felt hats. He ordered that number from Messrs. H. Haege and Co., directing that two dozen should be sent to his masters, and taking delivery of the other dozen. He did not return to his employers' warehouse, nor did he send the hats, which had been delivered to him for them. He was arrested at Lane Cove on the 13th instant. Prisoner was committed for trial at the Quarter Sessions, to be held on the 30th instant. Bail was allowed, himself in his own bond of £40, and one surety in a like amount.

THE WRECK OF THE TARARUA.

We learn from the New Zealand papers that the official inquiry into the circumstances of the wreck of the Tararua was commenced at Dunedin on the 10th instant, before Mr. W. L. Simpson, the resident magistrate, and Captain Thomson, harbour master, and Captain M'Govern, of the ship Benvenue, as nautical assessors. The first witness examined was Robert Lindsay, the first officer of the ship. He minutely detailed the course the ship had steered from the time she left Port Chalmers on April 28 until she struck on the morning of the 29th about a quarter past 5 o'clock. Before going below at 4 o'clock, he saw the course altered from W.S.W. to due W. Judging by the distance run, he believed the ship was off Slope Point at a quarter to 4 o'clock. He relied entirely on the rate run to indicate the position of the vessel. So far as he knew, no allowance was made for tide or current. There was a current of one or two knots marked on the charts. The course observed was the usual one for the Tararua to take. The boat in which he and several passengers and men tried to land was capsized about 400 feet or 500 feet from the shore, and one life was lost. He considered that it was the southerly swell that put the vessel so far in shore. The lead was not hove before the accident. Had the ship been half or quarter of a mile further out it would have cleared the reef. Edward Moloney, the second officer, was also examined. He said he took charge at 4 o'clock. At about 25 minutes past 4 Captain Garrard came on the bridge, and asked how he was steering. He replied W., and after a few minutes remarked to the captain that he fancied the vessel was too close in, as he thought he could hear the breakers. The captain altered the course to W. by S. ½ S. He kept on that about 20 minutes, and then said he would go aft and steady her on her course again. The vessel's compass subsequently showed her head was due W. a little before 5 o'clock. Ten minutes or so afterwards Moloney again thought he could hear the sound of waves dashing on the beach and told the captain, who rushed to the wheel and put the helm hard to starboard, but as the ship was coming round she struck. After she struck he saw broken water all around her, though two minutes before he could see nothing. The witness stated that his reason for putting out to sea with the boat entrusted to his charge, instead of lying by the ship, was that it was impossible for him to return to the ship as the sea was running so high.

Up to the 11th instant, between 60 and 70 bodies had been washed ashore, amongst others that of Captain Garrard, whose watch and a locket containing his mother's and intended wife's portraits had also been recovered. Many of the bodies had been buried near the scene of the disaster in an acre of land pegged off for that purpose, and which will be known as the "Tararua's acre." Most of the bodies were found on the Otara beach. It is said that the body of Captain Garrard, which was buried at Otara, will be removed to Christchurch for interment. The chief postmaster at Dunedin, on the 11th instant received the following telegram from Invercargill:—"Large bag, Dunedin to Melbourne, containing a bag of about 1000 letters, including 21 registered, and a mail for Albury (in which were enclosed nine letters), received from wreck of Tararua. Nineteen of the registered letters can be delivered; the other two are much damaged. Albury mail all right, but Melbourne letters appear much damaged." The wreckage coming ashore is of an unimportant description, some fifty or sixty casks of limejuice being amongst the most valuable recovered. The instructions issued by the managing director of the Union Steamship Company to the commanders of steamers have been published, and they instruct captains to "give particular instructions to the officer in charge of the bridge that when he has any doubt as to the safety of the course on which the steamer may at any time be proceeding, he shall on his own authority, and without waiting to consult you, stop the steamer and then seek your directions. Any officer neglecting this duty shall, on proof of the same, be dismissed from the company's service."

SATURDAY, 11th JUNE.

THE BRUSH FARM HOMESTEAD PORTION, COMPRISING 150 ACRES.

ONLY 6 MILES in a straight line from Sydney, and the FIRST SUBDIVISION of the CELEBRATED BRUSH FARM ESTATE, PENNANT HILLS.

150 ACRES.

TO BE SOLD ON THE GROUND, by MILLS, PILE, and GILCHRIST.

SATURDAY, 11th JUNE, in the Afternoon.

THE PENNANT HILLS consist of a romantic range of Basaltic Hills, extending from CASTLE HILL, about four miles north from PARRAMATTA, easterly to the mansions of Richard and Edward Terry, Esqs., which are such conspicuous land marks on the northern side of the PARRAMATTA RIVER, opposite HOMEBUSH.

They vary in height from 300 feet to 700 above the sea level, and thus enjoy the bracing atmosphere of the mountains. The soil is of the richest possible description, producing, in unexampled profusion, the oranges and other fruits, which are exported in such large quantities to all parts of AUSTRALIA and the SOUTH SEAS.

THIS MAGNIFICENT DISTRICT, so SUITABLE for GENTLEMEN'S MANSIONS, has been already rendered accessible through the construction of the BRIDGES ACROSS PARRAMATTA RIVER and IRON COVE, bringing it now within an hour's easy drive of SYDNEY; but, in the course of a year or so, the NORTHERN RAILWAY, for which PARLIAMENT has voted the necessary funds, will pass through the CENTRAL PORTION, and it will then be within half an hour's train of the POST OFFICE.

THE BRUSH FARM Estate is the very PICK of the DUNDAS PORTION of the PENNANT HILLS. It overlooks the PARRAMATTA RIVER. From it the whole of the SOUTHERN portion of the COUNTY of CUMBERLAND stands out like a panorama before you; while at night, the lights of the CITY and SUBURBS LOOK as one continuous glitter of diamonds; and people, with a good telescope, can be seen walking in the streets. No other city in the world has such a block of country for BELGRAVIAN RESIDENCES.

The Auctioneers will submit for public competition at this sale the property in the following order:—

THE MANSION AND GROUNDS, 20 acres, comprising the most improved portions, having large stabling and coachhouse, barns, men's rooms and sheds; and the homestead block is so arranged that it can never be built in or spoilt by surrounding premises.

2nd. THE TOWNSHIP and Suburban Lots, from half an acre; fronting the MAIN ROADS, to 3, 5, and 10 acres; and the well-known orchard, out of which three fortunes have been made, and still as healthy as ever from the peculiarity of its position, being in deep rich soil, on the borders of a rivulet, and protected on all sides from hot or cold winds.

A LINE OF WAGGONETTES runs from the PARRAMATTA RAILWAY STATION round the DUNDAS HILLS through BRUSH FARM every day, at the fare of 6d EACH WAY.

This ESTATE, known for the last sixty years as the residence of Dr. FORSTER and his family, has been held by them during the whole of that period up to a very recent date.

It has always been considered the FINEST ESTATE in the DISTRICT, and persons inspecting will confirm the opinion.

FREE PASSES to intending buyers WISHING TO VISIT the Property PRIOR TO SALE. AND THE TERMS WILL BE LIBERAL. LITHOGRAPHS are being prepared; and THE BRUSH FARM AND DUNDAS GAZETTE (a WEEKLY NEWSPAPER) will shortly be published, and by PLAN and DESCRIPTION try to give some idea of the beauties and advantages of this UNEQUALLED Property. TITLE FREEHOLD.

TERMS AT SALE.

HARDIE and GORMAN have received instructions from Dr. JACKSON to sell by public auction, at their Rooms, Pitt-street, at 11.30 o'clock,

WEDNESDAY, 25th MAY,

All that large BLOCK of LAND, ELEVATED but SHELTERED, most tastily laid out into LAWN, FLOWER and FRUIT GARDENS, well planted, paths asphalted, drains cemented, besides paddocks, with artificial ponds, &c., upon which is erected WALSOKEN, a most substantial and thoroughly well-built COTTAGE VILLA RESIDENCE, on a ROCK FOUNDATION of BRICK on STONE, with slated roof, having large verandah on two sides, with iron pilaster railings, wide hall and back verandah, drawing and dining rooms, 3 large bedrooms, servant's room, kitchen, and dairy, besides beautifully cool cellars for WINE, STORES, &c., bathroom and E. C.

The outbuildings consist of LAUNDRY with COPPER, &c., fitted; two large coachhouses, 2-stall stable, man's room and loft, fowl-houses, piggeries, milking bails, cart sheds, &c., &c.

In the GROUNDS are BUSH HOUSE, SUMMER HOUSE, TOOL HOUSE, &c., &c.

The WHOLE PROPERTY is most complete, and the TREES are in FULL GROWTH.

Special care and attention has been given to the building, and every provision made for perfect drainage and large water supply, from 7 or 8 iron tanks, besides underground tank.

This compact FREEHOLD is in the market for sale, solely on account of the SURVEYED LINE of railway to ILLAWARRA dividing the land. The present proprietor having made the property as it now is, for a COUNTRY HOME, and being so much disgusted at the thought of the property being cut in two, is willing to sell his SPECULATIVE CHANCE to a SPECULATOR.

It is probable that close by a RAILWAY STATION will be erected, when the land for BUSINESS PURPOSES ALONE might command high prices. Near to are the residences of S. H. Terry, Esq., M.P., P. Talbot, Esq., and Gerald Halligar, Esq. COOK'S RIVER PROPERTY is now being largely sought after, and must, with improved communication, either by rail or tramway, increase in value.

Cards to view may be obtained at the Sale Rooms.

WAVERLEY-STREET, BONDI.

WEDNESDAY, 25th MAY,

10 CITY BUILDING SITES, as above described, and as per plan on view at the Rooms.

The SPECIAL ATTENTION of BUILDERS is directed to the sale of these lots.

The ASPECT for buildings is EAST and NORTH, unquestionably THE BEST.

THE VIEWS are CHARMING and very VARIED, including a look-out over the CITY, NORTH SHORE, BALMAIN, &c., &c.

BUSINESS PREMISES or SUPERIOR CITY RESIDENCES if erected at the CORNER of these TWO MAIN THOROUGHFARES would doubtless let readily and to good tenants. The land has naturally good drainage, and with little expense the drainage can be connected with the main sewer which runs along ALBION-STREET.

The TRAMWAY is almost COMPLETED past the property, and by facilitating communication with the centre of the city it certainly enhances the value of the land.

BUYERS should INSPECT before DAY of SALE, as the AUCTIONEERS' INSTRUCTIONS are to REALIZE the LOTS.

CITY BUILDING LAND.

An opportunity will be offered on next WEDNESDAY, 25th May, to purchase about the very best building land in Surry Hills, close to the city and Oxford-street. The land to be sold on that date comprises that magnificent corner block of city building land at the junction of those two main thoroughfares, Crown-street and Albion-street, Surry Hills, next to the property of the late R. Uther, Esq. Three of these sites have frontages to Crown-street, six front Albion-street, and in addition there is one grand site fronting Riley-street. These sites are in the best part of Surry Hills, not far from the new Public School, very convenient to and yet sufficiently removed from the Oxford-street tramway. The land occupies about the highest position of any around Sydney, and is within ten or twelve minutes comfortable walk through Hyde Park to the centre of the city. No better opportunity is likely to occur for Builders to purchase, or for capitalists and investors to erect good residential or business premises. Large sale plan is on view at the Rooms, and every information will be afforded to parties making inquiries. Experts state that during the next decade city building land, if occupying an undoubted position, will at least double in value. Consequently now is the time to purchase, and erect dwellings or business premises, which will hereafter give a certain and highly remunerative return. The Title is the well-known Riley Estate. The sale will take place at our Rooms, on next Wednesday, 25th May, at 11.30 o'clock in the forenoon.

MISS IRONSIDE'S LAST PICTURE.

THE BEAUTIFUL CRAYON—" MARY, WITH THE BOX OF SPIKENARD," by Miss Ironside, is full of beauty in the deep sorrow and veneration so strongly expressed in the countenance, while the manner in which she holds the box of precious ointment is fully expressive of her mournful mission—"to anoint my body to the burying," as foretold by our Lord Himself—St. Mark xiv., v. 8. Of all his disciples, Mary was the only one who then believed in his resurrection, and here his words are fully verified,—"Wheresoever this Gospel shall be preached throughout the whole world, this also that she hath done shall be spoken of for a memorial of her."—St. Mark, xiv., v. 9.
